1. Welcome Messages

Dear delegates

Dear friends and colleagues,

The 2025 FISU World University Games Winter in Torino, Piedmont (Italy) is drawing inexorably closer. "Torino" is a name that has a unique and incomparable significance for FISU. Not only was FISU founded in this beautiful city in 1949, but Torino also hosted the first ever Summer Universiade ten years later in 1959. Moreover, Primo Nebiolo, FISU President from 1961 to 1999, also contributed to strongly linking Torino and FISU together.

Having held the Winter Olympics in 2006, Torino also hosted the Winter Universiade in 2007. Now, we are all preparing to return to the birthplace of both FISU and the Universiade, but also to the mountains in Sestriere, host of the 1966 Winter Universiade and an important cluster for the upcoming Torino 2025 FISU World University Games Winter.

I am very grateful to the Organising Committee of the Torino 2025 FISU Games Winter, but also to the political, academic and sport authorities who are making this student sporting highlight - set from 13 to 23 January 2025 - possible. It is thanks to their unwavering commitment and belief in the values of university sport that these FISU Games will take place.

I wish you all a smooth and successful preparation for your mission at the Torino 2025 FISU World University Games Winter and look forward to welcoming you to the Head of Delegation Meeting in September and then to the opening ceremony in Torino on 13 January 2025.

Leonz EDER

President of the International University Sports Federation

*Dear Delegates,
Dear Student-Athletes, Coaches, Dignitaries, and Presidents of Member Federations,
Dear all,*

It is a great pleasure for me to present the Technical Handbook for the Torino 2025 FISU World University Games Winter.

This handbook contains all the necessary information about the Games and the technical aspects for each sport, serving as a comprehensive guide for all participants and delegations involved. The Torino 2025 FISU World University Games Winter will feature a total of 11 sports, divided into snow and ice disciplines.

However, what fills me with particular pride is that, for the first time in the history of the FISU World University Games Winter, we will be hosting two parasports competitions: Para Alpine Skiing and Para Cross-Country Skiing.

This event promises the perfect setting for high-level competition across six stunning areas of Piedmont, an Italian region with a rich history in both sports and science: Turin, Sestriere, Bardonecchia, Pragelato, Pinerolo, and Torre Pellice.

I am looking forward to welcoming the big family of the Winter University Sports in Piedmont in just a few months' time!

5.5.4 THREE-POINT SYSTEM (2024 IIHF SPORT REGULATIONS)

For all games, points shall be awarded as follows:

- 3 points for the winning team at the conclusion of regulation time.
- 1 point for both teams at the conclusion of regulation time if the game is tied.
- An additional point earned for the team that wins the game in a 5-minute overtime period, or the penalty-shot shootout if the teams are still tied following conclusion of the overtime period.
- 0 points for the team losing the game at the conclusion of regulation time.

5.5.5 TIE BREAKING FORMULA (2024 IIHF SPORT REGULATIONS)

The tie-breaking system for two (2) teams with the same number of points in a standing will be the game between the two (2) teams, the winner of the game taking precedence.

Due to the fact that the three (3)-point system does not allow a game to end in a tie, then the following tie breaking procedure is applicable when three (3) or more teams are tied in points in a championship standing.

Should three (3) or more teams be tied in points, then a tie breaking formula will be applied as follows: creating a sub-group amongst the tied teams. This process will continue until only two (2) or none of the teams remain tied. In the event of two (2) remaining tied teams, the game between the teams would then be the determining tiebreaker, as the game could not end as a tie. In the case of none of the teams be tied, the criteria specified in the respective step applies.

FISU special regulations: in any event when the goal difference will be decisive, only a 10-goal difference per game will be taken into account.

Step 1: Taking into consideration the games between each of the tied teams, a sub-group is created applying the points awarded in the direct games amongst the tied teams from which the teams are then ranked accordingly.

Step 2: Should three (3) or more teams still remain tied in points then the better goal difference in the direct games amongst the tied teams will be decisive.

Step 3: Should three (3) or more teams still remain tied in points and goal difference then the highest number of goals scored by these teams in their direct games will be decisive.

Step 4: Should three (3) or more teams still remain tied in points, goal difference and goals scored then the results between each of the three teams and the closest best-ranked team outside the sub-group will be applied. In this case the tied team with the best result (1. points,

2. goal difference, 3. more goals scored) against the closest best ranked-team will take precedence.

Step 5: Should the teams still remain tied, then the results between each of the three (3) teams and the next highest best-ranked team outside the sub-group will be applied.

Step 6: Should the teams still remain tied after these five (5) steps have been exercised then Sport considerations will be applied, and the teams will be ranked by their positions coming into the Championship (seeding).

The IIHF Tie Breaking Formula will be used to resolve ties before the end of the Preliminary Round.

In the event where two (2) teams are tied and they have not yet played against each other, and in the event where three (3) or more teams are tied and not all mutual games have been played within the sub-group, the following criteria will be used to break the tie:

1. Fewest number of games played
2. Highest goal differential (GF-GA) in all games
3. Highest number of goals for (GF) in all games
4. Highest tournament seeding entering the tournament

In the event of three (3) or more tied teams, this process will continue until only two (2) teams remain tied. The game between the two (2) remaining tied teams would then be the determining tiebreaker. If the two (2) remaining tied teams have not played each other, the tie break will be determined by re-starting the process only for these two (2) teams.

5.5.6 OVERTIME OPERATIONS (2024 IIHF SPORT REGULATIONS)

Overtime – Operations for a Round Robin or for a Preliminary Round Game

If at the end of the three (3) regular twenty (20) minutes periods in a single Round Robin championship or the Preliminary Round of a top category championship and the two playing teams are tied, the teams will then play a 'sudden death' overtime period of not more than five (5) minutes with the team scoring first declared the winner. The overtime period shall be played with each team at a numerical strength of three (3) skaters and one (1) Goalkeeper.

The overtime period will commence following a three-minute intermission during which time a shoveling of the ice surface by arena personnel will be performed utilizing the same procedure as during television time-outs. Once the intermission has been completed, the clock will be reset to 5:00 minutes and the overtime period will begin immediately. Teams will not change ends.

The players will remain at their respective player benches during the 3-minute intermission in which the shoveling of the ice surface takes place.

Goalkeepers must go to their respective players' benches during this rest period, however, penalized players must remain on the penalty bench. Should a penalized player exit the penalty bench, he shall be returned immediately by the game officials with no additional penalty being assessed, unless he commits an infraction of any other rule. Teams are not permitted to return to the dressing room during this time.

Penalties

When regulation time ends, and the teams are 5 on 3, teams will start the overtime period with 5 on 3. Once player strength reaches 5 on 4 or 5 on 5, at the next stoppage of play, player strength is adjusted to 4 on 3 or 3 on 3, as appropriate.

When regulation time ends, and teams are 4 on 4 teams will start overtime 3 on 3. Once player strength reaches 4 on 4, at the next stoppage player strength is adjusted to 3 on 3 as appropriate.

If at the end of regulation time teams are 3 on 3, overtime starts 3 on 3. Once player strength reaches 4 on 4, 5 on 4 or 5 on 5, at the next stoppage player strength is adjusted to 3 on 3 or 4 on 3 as appropriate.

At no time will a team have less than three players on the ice. This may require a fourth and/or fifth skater to be added in the event penalties are assessed.

If a team is penalized in overtime, teams play 4 on 3. If both teams are penalized with minor penalties at the same stoppage of play (with no other penalties in effect), teams will continue to play 3 on 3.

In overtime, if a team is penalized such that a two-man advantage is called for, then the offending team will remain at three (3) skaters while the non-offending team will be permitted five (5) skaters.

At the first stoppage of play after the two-man advantage is no longer in effect, the numerical strength of the teams will revert back to 4 on 3 or 3 on 3, as appropriate.

Overtime – Operations for Semifinals or for the Bronze Medal Game

If at the end of the three (3) regular twenty (20) minutes periods in a Semifinals Game, a Relegation Round Game, a Classification Round Game or in a Bronze Medal Game and the two playing teams are tied, the teams will then play a 'sudden death' overtime period of not more than 10 minutes with the team scoring first declared the winner. The overtime period shall be played with each team at a numerical strength of three (3) skaters and one (1) Goalkeeper.

The overtime period will commence following a three-minute intermission during which time a shoveling of the ice surface will be performed by arena personnel utilizing the same procedure as during television time-outs. Once the intermission has been completed, the clock will be reset to 10:00 minutes and the overtime period will begin immediately. Teams will not change ends.

The players will remain at their respective player benches during the 3-minute intermission in which the shoveling of the ice surface takes place.

Goalkeepers must go to their respective players' benches during this rest period, however, penalized players must remain on the penalty bench. Should a penalized player exit the penalty bench, he shall be returned immediately by the game officials with no additional penalty being assessed, unless he commits an infraction of any other rule. Teams are not permitted to return to the dressing room during this time.

Penalties

When regulation time ends, and the teams are 5 on 3, teams will start the overtime period with 5 on 3. Once player strength reaches 5 on 4 or 5 on 5, at the next stoppage of play, player strength is adjusted to 4 on 3 or 3 on 3, as appropriate.

When regulation time ends, and teams are 4 on 4 teams will start overtime 3 on 3. Once player strength reaches 4 on 4, at the next stoppage player strength is adjusted to 3 on 3 as appropriate.

If at the end of regulation time teams are 3 on 3, overtime starts 3 on 3. Once player strength reaches 4 on 4, 5 on 4 or 5 on 5, at the next stoppage player strength is adjusted to 3 on 3 or on 3 as appropriate.

At no time will a team have less than three players on the ice. This may require a fourth and/or fifth skater to be added in the event penalties are assessed.

If a team is penalized in overtime, teams play 4 on 3. If both teams are penalized with minor penalties at the same stoppage of play (with no other penalties in effect), teams will continue to play 3 on 3.

In overtime, if a team is penalized such that a two-man advantage is called for, then the offending team will remain at three (3) skaters while the non-offending team will be permitted five (5) skaters.

At the first stoppage of play after the two-man advantage is no longer in effect, the numerical strength of the teams will revert back to 4 on 3 or 3 on 3, as appropriate.

Overtime – Operations for the Gold Medal Game

If at the end of the three (3) regular twenty (20) minutes periods in a Gold Medal Game of a top category championship and the two playing teams are tied, the teams will then play a 'sudden death' overtime with the team scoring first declared the winner. The overtime period(s) shall be played with each team at a numerical strength of three (3) skaters and one (1) Goalkeeper.

The overtime period will commence following an ice resurfacing during a 15-minute intermission where the teams will return to their dressing room before the start of the overtime period. Teams will not change ends.

If at the end of the first overtime period the two playing teams are still tied, the teams will then continue to play a second overtime period following an ice resurfacing during a 15-minute intermission where the teams will return to their dressing room before the start of the 2nd overtime period. Teams will change ends.

If at the end of the 2nd overtime period the two playing teams are still tied, the teams will then continue to play a third overtime period following an ice resurfacing during a 15-minute intermission where the teams will return to their dressing room before the start of the 3rd overtime period. Teams will change ends.

This procedure will go on until a winner is declared.

Penalties

When regulation time ends, and the teams are 5 on 3, teams will start the overtime period with 5 on 3. Once player strength reaches 5 on 4 or 5 on 5, at the next stoppage of play, player strength is adjusted to 4 on 3 or 3 on 3, as appropriate.

When regulation time ends, and teams are 4 on 4 teams will start overtime 3 on 3. Once player strength reaches 4 on 4, at the next stoppage player strength is adjusted to 3 on 3 as appropriate.

If at the end of regulation time teams are 3 on 3, overtime starts 3 on 3. Once player strength reaches 4 on 4, 5 on 4 or 5 on 5, at the next stoppage player strength is adjusted to 3 on 3 or on 3 as appropriate.

At no time will a team have less than three players on the ice. This may require a fourth and/or fifth skater to be added in the event penalties are assessed.

If a team is penalized in overtime, teams play 4 on 3. If both teams are penalized with minor penalties at the same stoppage of play (with no other penalties in effect), teams will continue to play 3 on 3.

In overtime, if a team is penalized such that a two-man advantage is called for, then the offending team will remain at three (3) skaters while the non-offending team will be permitted five (5) skaters.

At the first stoppage of play after the two-man advantage is no longer in effect, the numerical strength of the teams will revert back to 4 on 3 or 3 on 3, as appropriate.

5.5.7 PENALTY-SHOT SHOOTOUT PROCEDURE (2024 IIHF SPORT REGULATIONS)

If following the completion of regulation time in any IIHF Championship game and the score of the game is tied, the teams will then play an overtime period with a maximum duration and number of players as specified in the IIHF Sport Regulations with the team scoring first declared the winner.

If no goal is scored in the overtime period, then the IIHF Penalty-Shot Shootout Procedure will apply. The following procedure will be utilized:

1. Shots will be taken at both ends of the ice surface. The 14-meter wide longitudinal center section of the rink, between the Face-Off Spots in the neutral and end zones, will be dry-scraped by the ice-resurfacing machine prior to the Penalty-Shot Shootout during the time required to organize the program accordingly.
2. The procedure will begin with five (5) different shooters from each team taking alternate shots. The players do not need to be named beforehand. Eligible to participate in the Penalty-Shot Shootout will be the four Goalkeepers and all players from both teams listed on the official game sheet except as specified in article 3 below.
3. Any player whose penalty had not been completed when the overtime period ended is not eligible to be one of the players selected to take the shots and must remain in the penalty box or in the dressing room. 5.9.2 TESTING

The required number of samples will be selected during the “in-competition” and “out-of-competition” periods in accordance with the Test Distribution Plan. “In-competition” is defined as the period commencing 12 hours before a competition in which the athlete is scheduled to participate through to the end of such competition, and the sample collection process related to such competition. “Out-of-competition” is defined as any doping control which is not “in-competition.” During the Torino 2025 FISU Games, athletes can be tested at any time without prior notice.
