## 1. Welcome Messages

Dear delegates, Dear friends and colleagues,

The 2025 FISU World University Games Winter in Torino, Piemonte (Italy) is drawing inexorably closer. "Torino" is a name that has a unique and incomparable significance for FISU. Not only was FISU founded in this beautiful city in 1949, but Torino also hosted the first ever Summer Universiade ten years later in 1959. Moreover, Primo Nebiolo, FISU President from 1961 to 1999, also contributed to strongly linking Torino and FISU together.

Having held the Winter Olympics in 2006, Torino also hosted the Winter Universiade in 2007. Now, we are all preparing to return to the birthplace of both FISU and the Universiade, but also to the mountains in Sestriere, host of the 1966 Winter Universiade and an important cluster for the upcoming Torino 2025 FISU World University Games Winter.

I am very grateful to the Organising Committee of the Torino 2025 FISU Games Winter, but also to the political, academic and sport authorities who are making this student sporting highlight - set from 13 to 23 January 2025 - possible. It is thanks to their unwavering commitment and belief in the values of university sport that these FISU Games will take place.

I wish you all a smooth and successful preparation for your mission at the Torino 2025 FISU World University Games Winter and look forward to welcoming you to the opening ceremony in Torino on 13 January 2025.

Leonz EDER
President of the International University Sports Federation

Dear Delegates,

Dear Student-Athletes, Coaches, Dignitaries, and Presidents of Member Federations, Dear all,

It is a great pleasure for me to present the Technical Handbook for the Torino 2025 FISU World University Games Winter.

This handbook contains all the necessary information about the Games and the technical aspects for each sport, serving as a comprehensive guide for all participants and delegations involved.

The Torino 2025 FISU World University Games Winter will feature a total of 11 sports, divided into snow and ice disciplines.

However, what fills me with particular pride is that, for the first time in the history of the FISU World University Games Winter, we will be hosting two parasports competitions: Para Alpine Skiing and Para Cross-Country Skiing.

This event promises the perfect setting for high-level competition across six stunning areas of Piedmont, an Italian region with a rich history in both sports and science: Turin, Sestriere, Bardonecchia, Pragelato, Pinerolo, and Torre Pellice.

I am looking forward to welcoming the big family of the Winter University Sports in Piedmont in just a few months' time!

Alessandro Ciro Sciretti President of Torino 2025 FISU World University Games

Jens Con Salt

## 5.8 Equipment

#### **5.8.1 COMPETITION EQUIPMENT**

The purpose of the IBU Materials Catalog is to regulate all aspects of materials relating to Biathlon competitions. It is based on the binding nature of the IBU Event and Competition Rules and is part of those rules. The Materials Catalog provides the definitions, current specifications and requirements of all competition-related materials, the approval process for the admission of

new materials, and the inspection procedures for enforcing the materials regulations. All equipment used by athletes is governed by the IBU Event and Competition Rules.

#### 5.8.2 RIFLES AND AMMUNITION

Ammunitions are **prohibited** in all Village areas and will need to be checked and deposited in the ammo storage locker room.

See the Rifle and Ammunition Sport Policy for information regarding temporary import and export of rifles and ammunition, as well as storage during competition. (see annex BIATHLON RIFLES & AMMUNITION POLICY in section 8)

#### 5.8.3 STORAGE AND WAXING ROOMS

The Torino 2025 FISU World University Games will provide sport equipment storage and waxing rooms for the teams. All facilities are built and organized according to all international requirements. Waxing rooms and cabins for Biathlon will be provided on site at the competition venue. Sections will be allocated to the respective nations and shared among their sports.

#### **5.8.4 WAXING ROOM EQUIPMENT**

The wax rooms are equipped with special tables and equipment for preparing skis with lighting, several electric outlets, adequate heating, ski racks and waste bins.

Waxing cabins and ammunition storage for athletes competing in Biathlon will be located in the BTH facility. Rifle storage will be housed in ?TBD?.

The OC is planning on providing one (1) waxing benches in each waxing cabin/area. Each waxing area (for all relevant sports) will have an ample supply of 220v power, plug-ins and extensions.

The OC will NOT be providing power converters/transformers, waxing irons, vises, etc. Missing eventual ski preparing equipment can be available in sport shops or by contacting directly sport equipment factories.

#### 5.8.5 FLUOR CONTROL

As stated in FISU Technical Regulation for the Torino 2025 FISU World University Games, the OC will follow the most recent IBU Technical Rules. Full implementation of the fluor wax ban is applied for the Torino 2025 FISU World University Games events. Testing procedure is in the process of development to ensure that all events will be regulated not using fluorine waxes which is mandatory for IBU competitions.

All athletes and team TO must know that fluor use is officially banned, therefore everyone must follow the rules accordingly.

As stated in FISU Technical Regulation for the Torino 2025 FISU World University Games, the OC will follow the most recent IBU Technical Rules.

## 5.9 Doping Control

Doping Control will be carried out in accordance with the WADA World Anti-Doping Code and FISU regulations: <a href="https://wugtorino2025.com/wp-content/uploads/2024/11/20240206">https://wugtorino2025.com/wp-content/uploads/2024/11/20240206</a> Torino-2025-FISU-Games-Regulations-Feb2024-1.pdf. Conditions for doping control procedures will be provided during the competitions at all sports venues.

#### 5.9.1 LIST OF PROHIBITED SUBSTANCES

The actual list of prohibited substances and methods is defined in accordance with WADA international standards. National University Sports Federations will be responsible for ensuring that their delegations, namely athletes, are made aware of the actual copy of the prohibited list. Ignorance of the prohibited list contents will in no way constitute a valid excuse for any participant of the Torino 2025FISU World University Games violating valid FISU Anti-Doping Rules. For the current WADA list of prohibited substances and methods, please refer to the following website: www.wada-ama.org

#### 5.9.2 TESTING

The required number of samples will be selected during the "in-competition" and "out-ofcompetition" periods in accordance with the Test Distribution Plan. "In-competition" is defined as the period commencing 12 hours before a competition in which the athlete is scheduled to participate through to the end of such competition, and the sample collection process related to such competition. "Out-of-competition" is defined as any doping control which is not "incompetition." During the Torino 2025 FISU Games, athletes can be tested at any time without prior notice. Urine and/or blood samples will be collected in compliance with the WADA International Standard for Testing and Investigations (ISTI). A paperless system will be used for the sample collection. The testing will be conducted by Doping Control Officers (DCO) from the National Anti-Doping Organization (NADO), an anti-doping organization accredited by WADA. Testing will be conducted under the supervision of the FISU International Medical Committee. The samples collected at competition venue doping control stations will be transported to the WADA approved laboratory in Italy. All results will be sent to the Chairman of the FISU International Medical Committee and entered into the ADAMS system. In the event of a violation of FISU Anti-Doping rules, the responsibility of processing the results lies with the FISU International Medical Committee.

In the event of setting a national record, doping testing of the athlete is carried out at the expense of his/her National University Sports Federation.

#### **5.9.3 DOPING CONTROL STATIONS**

Doping control stations are located at each sports venue or in close proximity. All doping control stations will be marked with signs, including signage directing athletes to the stations. After the completion of the doping control procedure, all samples collected at each doping control station will be delivered to the central doping control station together with the necessary support documentation (doping control protocols) for further registration in the ADAMS system. All samples will be packaged and sent to the WADA accredited anti-doping laboratory in accordance with international standards. All information concerning the doping control program during the Torino 2025 FISU World University Games is confidential according to WADA and FISU requirements. When visiting a doping control station, athletes are required to have accreditation cards.

o The doping control station for Biathlon athletes will be located in Pragelato Plan.

#### 5.9.4 THERAPEUTIC USE EXEMPTIONS (TUE)

Torino 2025 FISU World University Games participants who require Therapeutic Use Exemptions (TUE) must make an appropriate request to their National Anti-Doping Organization or International Federation before participation in the Torino 2025 FISU Games. The World Anti-Doping Agency International Standard for TUEs will be applied in this case. Every athlete who uses a substance or a method included in the list of prohibited substances is obliged to be in possession of a completed TUE form of the established standard from the moment of arrival until the departure from the Village after the Closing Ceremony of the Torino 2025 FISU World University Games.

If there is a need for the use of a prohibited substance or a prohibited method for medical reasons after the opening of the Torino 2025 FISU Games, an athlete must submit a request for TUE to the FISU International Medical Committee as a matter of urgency (antidoping@fisu.net). The responsibility for completing the TUE form and submitting an application to the FISU International Medical Committee lies with the delegation physician.

If the delegation does not have its own physician, the athlete shall submit a request for TUE to the FISU International Medical Committee (antidoping@fisu.net), with the attachment of medical documentation confirming the need for providing him/her with emergency medical treatment.

Ammunition will be stored in secured room at the Biathlon Venue in Pragelato Ruà. For Rifles, OC is dealing with authority to allow the rifles to be kept in athletes accommodation in order to give dry shooting possibility.

Biathletes, coaches arriving directly in Italy by flight have to present, at custom control at airport, the declaration asking to seal.

For a smooth procedure it is important:

#### Recommendations:

As soon as declaration form (annex 1) is ready it is necessary to send a copy to OC in order to have it controlled and delivered to the Police station at the arrival & departure airport.
