## 1. Welcome Messages

Dear delegates

Dear friends and colleagues,

The 2025 FISU World University Games Winter in Torino, Piemonte (Italy) are drawing inexorably closer. "Torino" is a name that has a unique and incomparable significance for FISU. Not only was FISU founded in this beautiful city in 1949, but Torino also hosted the first ever Summer Universiade ten years later in 1959. Moreover, Primo Nebiolo, FISU President from 1961 to 1999, also contributed to strongly linking Torino and FISU together.

Having held the Winter Olympics in 2006, Torino also hosted the Winter Universiade in 2007. Now, we are all preparing to return to the birthplace of both FISU and the Universiade, but also to the mountains in Sestriere, host of the 1966 Winter Universiade and an important cluster for the upcoming Torino 2025 FISU World University Games.

I am very grateful to the Organising Committee of the Torino 2025 FISU Games Winter, but also to the political, academic and sport authorities who are making this student sporting highlight - set from 13 to 23 January 2025 - possible. It is thanks to their unwavering commitment and belief in the values of university sport that these FISU Games will take place.

I wish you all a smooth and successful preparation for your mission at the Torino 2025 FISU World University Games Winter and look forward to welcoming you to the opening ceremony in Torino on 13 January 2025.

Leonz Eder

President of the International University Sports Federation

Dear Delegates,

Dear Student-Athletes, Coaches, Dignitaries and Presidents of Member Federations,

Dear all,

I am writing today to present our Head of Delegation Manual for the Torino 2025 FISU World University Games. This should help you plan and organise your journey in the best possible way.

Though dates and facts may be of major importance for any successful event, we all know real success is only possible with the right mind-set and true emotions.

Thinking of January 2025 gives me goose bumps. I am certain that all your student-athletes will give their best to excel and shine in their beloved disciplines. It fills me with pride and joy knowing that the FISU World University Games Winter will be staged in stunning areas, with great historical significance in terms of sports and science, of Italy. I am certain we are going to experience perfect synergy of everything what this event is about and believe that the competitions will be a success at all levels: not only athletically and organisationally but also in broadcast and media coverage.

The Torino 2025 FISU World University Games will come to action thanks to you as Student-Athletes on one hand, but also as Presidents and Heads of the member federations on the other hand. You will be the ones filling the event with life, spreading the spirit of friendship and fair-play, collaboration and cooperation that is inherent to both the world of sports and academics.

The winter university sports community is a big family that is due to get together in Piemonte in just a few months' time, and one thing is for certain: We will have reasons to celebrate and remember not only Torino, but also Sestriere, Bardonecchia, Pragelato, Pinerolo and Torre Pellice!

I am looking forward to welcoming all of you and to proudly sharing the beauty of Piemonte, Italy, with you.

### Electricity

In Italy, the standard voltage is 230 V and the frequency is 50 Hz. The two most common types of electrical plugs and sockets are Type F and Type L:

- **Type F:** Type F is a two-pin round plug with grounding commonly used in many European countries, including Italy. This type of plug is compatible with Type C power outlets, which are the two-pin plugs used in many other European countries.
- **Type L:** Type L is a three-pin plug with two pins positioned vertically and one horizontally. This type of plug is specific to Italy and is also used in some other countries. Type L power outlets are designed to accept both Type L and Type C plugs.

It is recommended to bring a universal adapter if you are traveling to Italy from a country with a different plug type. Italian sockets may also accept Type C plugs, which are commonly used in Europe. It is important to check the voltage and plug compatibility before plugging in any electronic devices to avoid damage. Additionally, power outages are rare in Italy, but it is always a good idea to be prepared with a portable charger or power bank when traveling.

- To inform the OC about flight Company

This will facilitate the OC informing airport Police about arrivals and departures, making procedures less stressful.

Once you exit the airside area, you will find, on the left, the OC Staff.

Arrivals and Departures volunteers will accompany all delegations to the Waiting Area, situated near the multilevel Parking. Signage on the route, will help locate it.

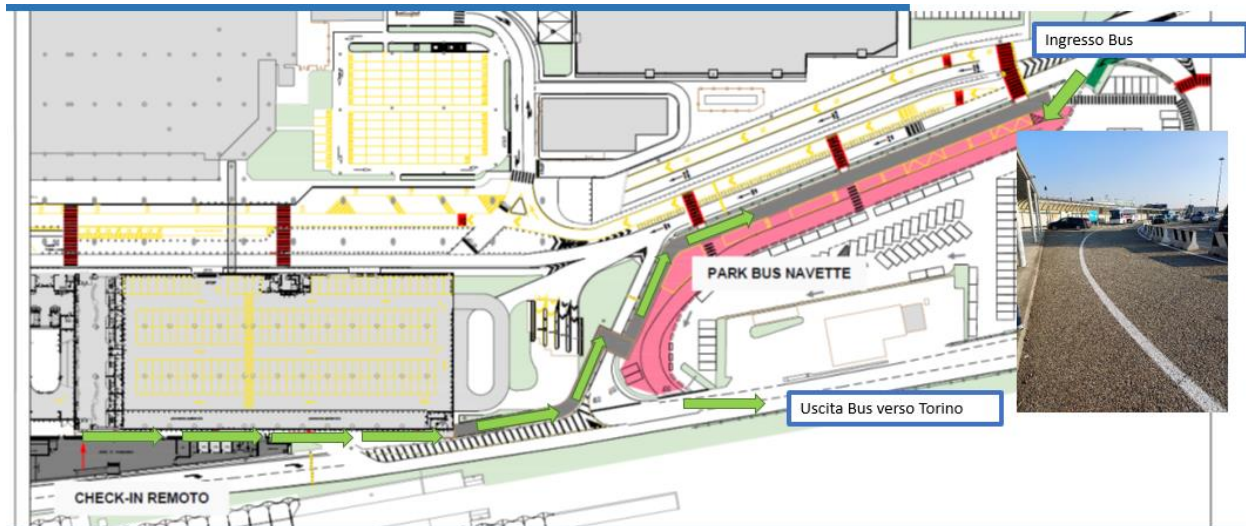

At the waiting area all the athletes could be able to leave their sports equipment, to wait in case of need, and to be escorted by our staff and volunteers to the loading area just outside the building.

### Transportation load zones

The Arrivals and Departures and Transportation teams will confirm that all passengers for a particular transfer have arrived and will help ensure individuals and their luggage are loaded onto the appropriate bus with the correct luggage tag. Once all passengers have arrived and are on the bus, transportation staff will again confirm to which Village(s) the bus will travel and then they will dispatch the bus. Passengers will be responsible for bringing their own luggage to the bus for loading with the assistance of the bus driver.

If there is not enough space on the bus for all suitcases and personal belongings, those in excess will be placed, together with the sports equipment, on trucks operated by logistics, which will follow the buses to their destination, unloading, if necessary, personal luggage first at the accommodation and then follow to the venues.

### 9.2.3. Customs Charter

It is important to remember what the import and export limits and rules are, which you can consult in detail by clicking on the following link:

[98376006-a936-9315-126e-1e8544b28e4f](https://www.italy-airports.com/en/98376006-a936-9315-126e-1e8544b28e4f)

In the next chapter we summarize the main points, divided between EU and non-EU countries.

## 9.2.4. Travelling from and to European Union Countries

### European Union Countries

Passengers moving within the European Union are allowed to carry the goods purchase in any EU business without limitation and without having to fulfil customs formalities.

The only exception being some categories of products, such as manufactured tobacco, alcohol and alcoholic beverages for which approximative threshold are indicated here below, referred to purchase carried out by private persons.

The transport of cash or other securities is allowed for amounts lower than 10.000 euros. For amounts equal to or exceeding 10.000 euros a form shall be filled in, signed and lodged at the Customs offices upon arrival into the country or upon departure from it.

Manufactured tobacco	
Cigarettes	800 pieces*
or	
Cigarillos (max. 3 gr. each)	400 pieces
or	
Cigars	200 pieces
or	
Smoking tobacco	1 kg
Alcohol and alcoholic beverages	
Alcohol and alcoholic beverages of an actual strength by volume exceeding 22%	10 litres
Alcohol and alcoholic beverages of an actual strength by volume lower than 22%	20 litres
Wine (60 of which sparkling wine)	90 litres
Beer	110 litres

### 9.2.5. Travelling from and to non-EU countries

#### Passenger's personal belongings

Valuable personal belongings (for example, photographic equipment, video-cameras, personal computers, watches), carried by travellers in their personal luggage when leaving for a non-EU country, have to be accompanied by documentation (proof of purchase, certificate of guarantee or import declaration) proving their regular purchase or importation into Italy, in the event of a control carried upon return. In default of such documentation, the traveller is recommended to produce, at the premises of the departure customs office, an ownership declaration to be shown upon return.

#### Import

Customs duty exemption is granted for products and consumer goods carried by travellers in their personal luggage when coming from a non-EU country, provided that such imports are incidental and that the goods are intended for the personal and family use of the traveller and provided that their value does not exceed altogether 300 euros per traveller. This amount is increased to 430 euros in case the traveller arrives by air or by sea. If the value of the product exceeds the above-mentioned amounts, the traveller is required to pay the customs duties on the entire value of the purchased product. For travellers under 15 years of age the threshold is cut down to 150 euros, irrespective of the means of transport used. In the calculation of the total amount should not be considered the value of the consumer goods indicated in the table below, within the limits therein specified. While awaiting compliance with all customs formalities, the traveler may store at the customs premises - for 90

days - products or consumer goods beyond the “allowance” permitted (these products shall be entered by the customs office in Register A/3 Bis). Failure to collect the products within the above time-limit determines a state of neglect declaration of the products which are then acquired by Tax Authorities.

### 9.3. Torino Porta Susa Train Station

The Torino Porta Susa Station (TSS) is a transit station, not a terminus station. This means that trains will make a very short stop before continuing to the next station, so our staff and volunteers will be stationed along the platform to wait, with lollipop signs, for the various delegations. Once passengers have been greeted along the platform, Volunteers will accompany them to the Welcome Desk where they will receive directions on their transportation. They will then be escorted to Corso Inghilterra, where TRA will have its vehicles stationed.

### 10.8. Additional Officials (Para)

As mentioned in the regulations and HoD meeting Q&A session, the guides for Vision Impaired athletes are not counted in the officials' quota (same as the media liaisons) and can participate at the regular participation fee of EUR 75 per person and per night.

### 11.3. Village allocation and Allotment

The allocation of delegations in each Village (whether dormitory or hotel) is made exclusively by the Organising Committee, depending upon the number of rooms and delegations' sport. No changes are allowed after the OC has designated the allocation site. The OC will also determine all room types used by delegations based upon the lists provided by each delegation (Q-Form), and changes to these allotments will only occur after receipt of the rooming lists (I-Form) from each delegation.

#### Key Dates:

**13 December 2024**

Submission of I-Form entries

**20 December 2024**

Rooming list with delegation names due from OC

**8 ~ 25 January 2025**

FISU Games Village operations

No accommodation sites or room changes are possible for any Delegation members, including the HoD. The only exception will be the move from Pinerolo/Torre Pellice to [Torino for the IHO M Athletes](#) that advance to the Semi-Finals and Finals (top 4 teams). determined for the final rounds. [Housing is allotted prior to competition](#); delegations will not have the possibility to select accommodation.

Additionally, the new policy for Extra Officials follows as attached.

Extra Officials at the Torino 2025 FISU Games may participate under specific terms due to limited space in all clusters. Delegations must pay a EUR 75 registration fee per Extra Official, covering security checks and accreditation, which grants access to competition venues, official villages, public transportation within the Games' scope, and round-trip transfers from designated arrival points (Torino Airport and Porta Susa Train Station) to their chosen cluster. However, accommodation, meals, transportation to medal plazas and competition venues, and dining at villages require additional arrangements by the Extra Official or advance purchase of meal vouchers. This policy strictly applies to individuals classified as Extra Officials under FISU regulations, separate from officials within the delegation's allowed quota.

Single rooms are guaranteed exclusively for Heads of Delegations and Assistant Heads of Delegations, per FISU regulations. These individuals will be assigned single rooms as a priority.

Check-in and Check-out Procedure:

- Check-in time for Village and hotels [will be 12:00 for Villages and 16:00 for hotels](#)
- [Check-out time for Village and hotels will be 12:00 for Villages and 12:00 for hotels](#)

[\\*Check-in and check-out times for individual hotels that do not correspond will be added at a later date.](#)

*\*During the FISU Games Village Operations, reception will be open 24/7*

- Early check-in and late check-out are only available upon request. Should delegations need early check-in or late check-out, this request should be made to OC [by sending an e-mail to: accommodation@wugtorino2025.com](#), as early as possible (ideally two-to-five (2-5) weeks in advance) and only when necessary due to travel itineraries.

- In any case, the above-mentioned requests will be approved by the effective availability of the Village and/or hotel, according to the booking plan.
- Delegations must provide the necessary information for each participant (name, surname, nationality) together with the rooming list (I-Form) no later than 13 December 2024, including some other useful information, such as intolerance, allergy, particular notes (please note that arrival and departure dates within the I-Form must be in numerical format as follows MM/ DD/YYYY).
- Delegations are not allowed to directly contact any Village, whether a hotel or a dormitory.

Once the allocation process has been completed and approved by the Accommodation Functional Area at the Main Accreditation Centre (MAC) or satellite Accreditation Centres, the Village Management team will move forward with the allotment process at the designated Villages.

The allotment process at each accommodation will include receiving an envelope containing room keys and a QR code with information specific to the Village (i.e. dining hall, ski storage, laundry facilities, other facilities and services, etc.). These envelopes will be distributed directly to the Delegations upon arrival at respective hotels corresponding Hotels or Villages. This information will also be provided in common areas throughout each Village.

In accordance with the FISU Minimum Requirements, a single room with its own bathroom facilities will be invariably provided to the Head of Delegation and Assistant Head of Delegations. Each Head of Delegation and Assistant Head of Delegations must designate which Village they wish to stay in advance.

The Accommodation team together with Village Management team will do their best to keep the delegation athletes and officials' rooms near each other. This may not be 100% possible as the floor plans at each of the Village and/or hotel vary. The OC will do its best to accommodate all requests, however all requests will be handled on a first come first served basis, based on availability at each Village and/or hotel.

## 14. Transportation

The Organising Committee and FISU, in collaboration with the support of Local Authorities (Piemonte Region, the municipalities of Turin and other involved locations), have prepared a dedicated transportation plan for all accredited client groups of Torino 2025 FISU World University Games.

This plan will include the implementation of a series of transport services (within cluster and cross-clusters), carried out using existing public transportation services, dedicated scheduled bus and/or coaches and usage of assigned/booked car and/or minivan services that will be self-driven or with a driver. Transport services for accredited client groups will be deployed according to a specific timeline linked to different levels of service.

Three main types of services with the specific period of activation are identified:

**Competition and training:** transport services that connect accommodation locations such as FISU Games Villages, FISU Family Hotels etc. with competition and training venues.

**Arrivals and departures:** transport services that connect the official points of entry with accommodation locations such as FISU Games Villages, FISU Family Hotels, ITOs/NTOs Hotels etc.

**Ceremonies:** transport services that connect non-competition venues (accommodations, MPC, etc.) with Opening and Closing Ceremony venues.

### Level Of Service specifications – Competition & training

- **Transport Athlete** is a free service dedicated to Athletes, delegation officials and, where possible, to Spectating athletes (priority will be given to competing athletes)
- The service is split between Dedicated Buses (for IHO W/M) and Shuttle Buses (all other disciplines). Both services are activated for competition and training sessions only
- Regarding the Shuttle Bus Service, the frequency of the service is planned according to SPT requirements and inputs

- **Transport Connect** is a free service dedicated to all accredited client groups (Delegations, FISU Family, Medias, Workforce, etc.)
- Regular Shuttle Bus Service within each cluster and between key POIs (train stations, competition and non-competition venues, etc.)
- Service supply planned according to venue distribution and competition schedule. Only one cross cluster connection available in TC (Torino<>Pragelato) due to the lack of TP service

- **Public Transportation** service (metro, tram, bus, etc.) for all accredited stakeholders
- Regional Train service between clusters (usage of existing service SFM)

- Shared car service with a driver on call (can be reserved) and on-demand (using vehicles pre-assigned to a venue – similar to a taxi)
- Available for all venues and accommodations

- **Self-Drive** option is a free service for the Delegations who are entitled to it
- The number of vehicles assigned is based on the size of each delegation (quota agreed between FISU and OC)

- **Bring Your Own Car/Bus** option is an invitation for delegations to come and operate with their own vehicles instead of using their assigned vehicles provided by the Organising Committee
- Delegations will receive incentives and daily allowances to cope with the usage of their own vehicle

### *Level of Service specifications – Arrivals & Departures*

- **Arrivals and Departures** Transport is a free service dedicated to accredited stakeholders (including delegations) from/to official POEs (Point of Entry) and FISU Games Village (Delegation accommodation). The service will be based on arrivals and departure predicted volumes on peak and off-peak days.
- The service might be dedicated or shared based on grouping options. In some cases a shuttle service may be activated. Transport service will be adjusted according to multiple parameters (ETA, ETD, delegation size, destination...).

## Level of Service specifications – Ceremonies

- **Description:** Direct Service with scheduled departures (and/or shuttle services for specific client group)

### 14.1. Transportation Routes (Inter and Intra clusters)

Considering the locations where the competitions will take place and the location of the various accommodations, the geographical area covered by the event has been divided into four Clusters, each of which include both the competition venues and accommodations:

- Torino Cluster (TOR)
- Bardonecchia Cluster (BRD)
- Pragelato-Sestriere Cluster (PRA)
- Pinerolo-Torre Pellice Cluster (PTP)

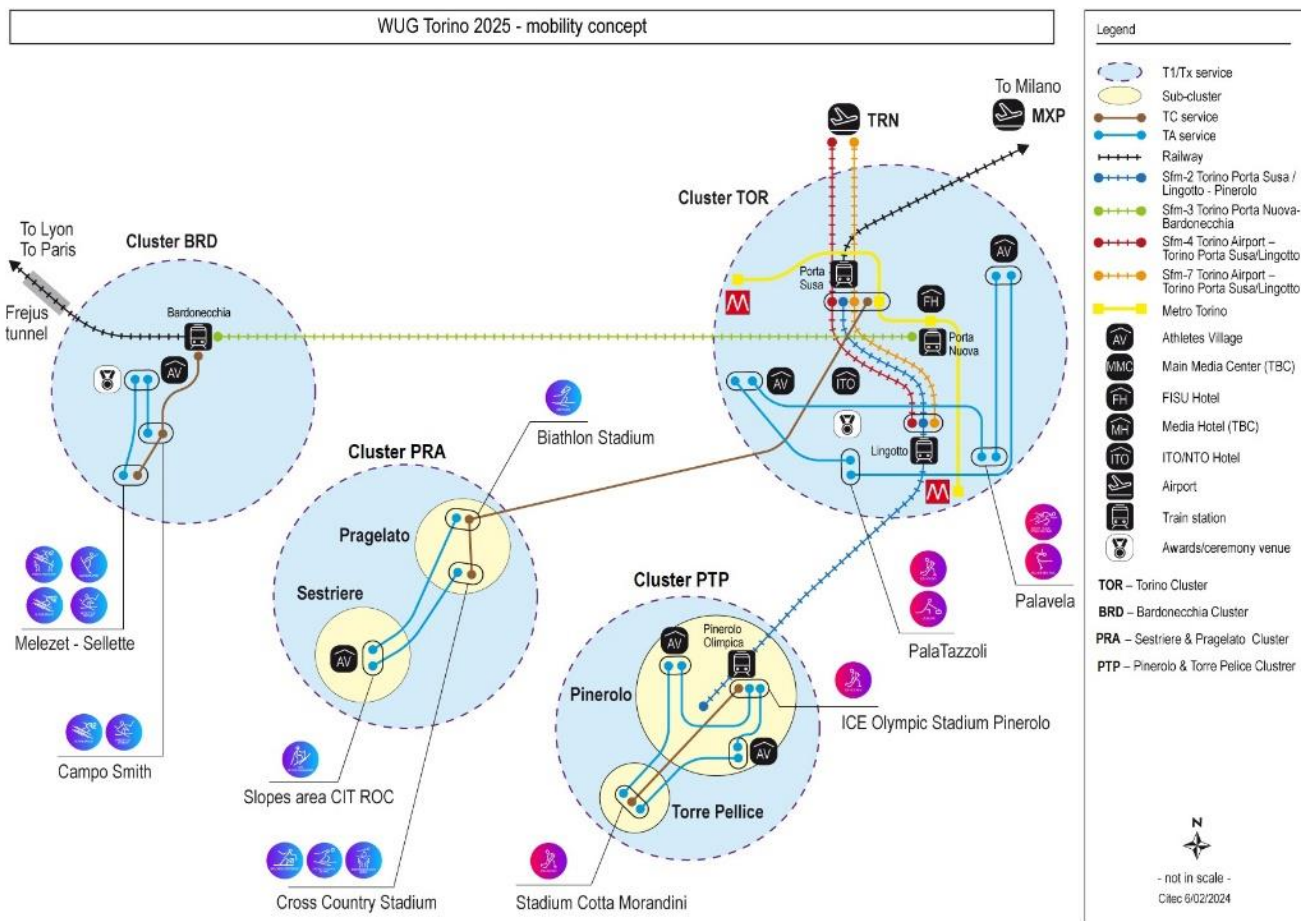

The transportation plan foresees that most of the transfers of accredited clients will be carried out by bus within each Cluster, with only a marginal amount involving transfers between the various clusters. Moreover, as shown on the Mobility Concept Map, to encourage the use of public transportation, transfers between the TOR-BRD and TOR-PTP clusters will be conducted free of charge via the local Sfm (Servizio Ferroviario Metropolitano) rail service. How accredited stakeholders will receive access is still being defined.

[For more detail on TA, TC and TP services in each cluster, please refer to the Transportation Guide \(Torino: section 4, Bardonecchia: section 5, Pragelato-Sestriere: section 6 and Pinerolo-Torre Pellice: section 7\).](#)

[For the complete TA and TC schedules across all clusters, please refer to the Transportation Guide section 16.](#)

[For the Venue Transport Maps, see section 15 of the same guide.](#)

At each of these locations, one or more transfer services will be arranged for accredited client groups.

### 14.3. Opening and Closing Ceremonies

On opening and closing ceremonies day, a dedicated service with scheduled departures from all FISU Games Villages to the Opening and Closing Ceremonies Venues will be provided. This service is dedicated to delegations heading to the ceremony venues with round-trip service. Specific pick-up times from each FISU Games Village can be found in Section 9 of the Transportation Guide.

- Opening Ceremony: Monday, January 13<sup>th</sup>, 2025 at the Inalpi Arena
- Closing Ceremony: Thursday, January 23<sup>rd</sup>, 2025 in Piazzetta Reale
- Concerned clients: Athletes and delegations

### 14.4. Vehicle Access Parking Permit

The Vehicle Access and Parking Permit (VAPP) allows access to the official Torino 2025 FISU World University Games selected parking areas depending on the transport code at competition and non-competition venues including FISU Games Villages, the airport and train stations.

Parking and Load Zone access at competition venues is limited, and every vehicle requiring access and/or parking must clearly display a VAPP.

A VAPP is provided for all Organising Committee vehicles as well as for vehicles assigned as delegation cars. A limited number of additional VAPPs are available upon request. Terms and conditions for the request are communicated in section 13 of the Transportation Guide. Requests will be reviewed by the OC (TRA) and FISU based on venue availability and priority; all representatives will be informed of the approval or denial by mid-December 2024.

In each competition venue, dedicated staff will ensure that delegations have access to their dedicated parking according to transportation plan policies.

- **VAPP Collection:**
  - For delegation vehicles (BYOC, BYOB, and additional approved requests), all approved VAPPs are to be collected from the MAC (Main Accreditation Centre) located inside the Lingotto Shopping Centre Complex from January 6<sup>th</sup>, 2025.
- Please contact [transport@wugtorino2025.com](mailto:transport@wugtorino2025.com) should you have any queries or requests.

## 14.5. Delegation Vehicle Service Policy

The OC provides a quota of vehicles for delegations according to Requirements agreed between FISU and the OC. These vehicles can be used for travelling to the competition venues, villages as well as to the other Torino 2025 FISU World University Games official locations. Delegation vehicles will be assigned in accordance with delegation size as follows.

Delegation Size (Athletes and Officials)	Vehicle Quota
1 to 4	0
5 to 49	1
50 to 109	2
110 to 159	3
Over 160	4

Options available for delegations are limited to:

### Self-drive (SD) option

- The Organising Committee provides vehicles without a driver as per the above chart. For example, your delegation size is 23, you are therefore entitled to a quota of 1 vehicle
- Drivers must be at least 21 years old and hold an internationally valid driver's license
- Each vehicle will receive a VAPP and a prepaid card with a 30€ credit per day for petrol, toll charges and washing services. Any penalties incurred must be paid by the driver
- Use of vehicles is allowed between official destinations of Torino 2025 FISU Games. Cross Cluster travel is permitted although no Organising Committee vehicles can operate outside of the Area of the Metropolitan City of Turin

### Bring Your Own Car (BYOC) option:

- Delegations have the option to bring their own car. Each car requires a VAPP provided by the OC. Each VAPP will replace a delegation-assigned vehicle as per the quota in the chart above. *For example, your delegation size is 120, you are therefore entitled to a quota of 3 vehicles. You would like to bring 1 of your own cars. A VAPP is issued for your own car, and you will then receive 2 self-driven vehicles with VAPPs from the OC, totalling your quota of 3 cars*
- Delegations will receive a 75€ credit per day per entitled vehicle (including arrival and departure days) to cover petrol, toll charges, washing services, and usage of a personal vehicle

### **Bring Your Own Bus (BYOB) option:**

- IHO teams are invited to come to Torino in their own vehicle. As with BYOC, each vehicle requires a VAPP provided by the OC. Each VAPP will replace an IHO team-dedicated bus as per the quota in the chart above
- If approved, the Organising Committee will provide a VAPP that must be displayed in the vehicle to access the delegation parking areas in all competition venues
- Delegations will receive a 500€ credit per day (including arrival and departure days) to cover petrol, toll charges, washing services, and usage of a personal vehicle. Please note that the credit is only applicable if BYOB is used during the entire duration and cannot be credited for single day use.
- [Parking is included on the Teams' specific competition venues on official competition and training days only. Parking is not guaranteed on any other competition or non-competition venue](#)

Further details are provided in the transportation guide in sections 10 and 13.

### **14.6. Traffic regulations and general recommendations**

Traffic in and around the Torino Area and other clusters may be restricted within the Low Emission Zone and Limited Traffic Zone.

Additional vehicles with VAPPs may be parked in P2 car parks on competition and non-competitions venues.

It is important that vehicles are equipped for winter conditions, with snow tires or chains, as roads can be covered by snow or ice during this period. Please note that this is not required by law but is, however, highly recommended.

### **14.7. Transportation for Doping Control**

Transportation for doping control purposes (e.g., from venue to Village if the last bus is missed) will be provided on demand via Organising Committee vehicles and in coordination with the Medical Services and Doping Control team. For further information the Transportation Guide Section 12.1.

### **14.8. Transportation to Hospitals**

Transportation to hospitals for non-emergencies will be provided on demand via Organising Committee vehicles in coordination with the Medical Services and Doping Control team.

All emergency related transport will be provided via ambulance service as directed by the Medical Services and Doping Control team. In cases where the venue or Village ambulance service is not available, European Emergency Number 112 should be called.

## **14.9. Medal Ceremonies**

### **Torino**

The medal ceremonies in TOR will take place in the venues (TAZ and PLV) after the matches have concluded.

### **Bardonecchia**

All medal ceremonies in BRD will take place in the [Palazzo delle Feste](#). No transport is provided as the venue is within walking distance from BRD-1 (12-minute walk).

### **Pragelato-Sestriere**

All medal ceremonies in PRA will take place at the Medal Plaza in Sestriere (MPS) located in [Piazza Fraiteve](#). CER vehicles will support the transfers to/from MPS of athletes not staying in Sestriere.

### **Pinerolo-Torre Pellice**

As the Ice Hockey finals and third place play-offs are taking place in Turin, there are no medal ceremonies taking place in PTP.

More information for each cluster can be found in the Transportation Guide section 9.3.

## 16. Sport

### 16.1. Sports Programme

The sports programme includes competitions in 11 sports that will take place at 11 competition venues.

The competitions will take place from 13 to 23 January 2025. The Curling Mixed Double and Ice Hockey tournaments will begin 2 days before the Opening Ceremony, on 11 January 2025.

In the event of a weather-related postponement, 'reserve days' are planned in the official general competition program for some sports. The Organising Committee will do its best to maintain all competitions on the scheduled days. However, in exceptional circumstances, the competitions may have to be postponed, or in some cases advanced to an earlier day if severe weather is projected.

## 18. Doping Control

### 18.1. General Provisions

Doping control will be carried out according to FISU Anti-Doping and WADA rules, which apply to the Torino 2025 FISU World University Games and are held under FISU supervision. All athletes and officials participating in the event are obliged to comply with these rules. According to the World Anti-Doping Code, it is the personal duty of any athlete to exclude the use or prevent the use of a prohibited substance or prohibited method. Doping controls may include collecting samples of blood, urine and other permitted methods for detecting prohibited substances and methods.

Team officials are obliged to inform athletes under their control in advance that they may be tested. The test results are submitted to WADA, the National Anti-Doping Organization (NADO) of the athletes, the International or National Federation and the corresponding National University Sports Federation. In addition to the sanctions prescribed in the code, any athlete attempting to avoid or refuse testing, or who is found guilty of doping, must be subject to disciplinary action. At the Torino 2025 FISU World University Games, the FISU International Medical Committee (CMI) is the sole authority that implements anti-doping rules for delegations. All necessary documentation can be found on the websites of WADA, FISU, international and national federations, relevant sports and anti-doping bodies and agencies as well as in the FISU Anti-Doping Rules.

### 18.2. Prohibited List

All prohibited substances, except for substances in the class of anabolic agents and hormones, as well as stimulants and hormone antagonists and modulators, designated as such in the Prohibited List, will be considered “special” substances. Prohibited methods are not included in the “special substances” category. NUSFs are responsible for ensuring that delegation members are aware of the Prohibited List and are familiar with the doping control process.

### 18.3. Doping Control Stations

Doping control stations are located at each competition venue and at the FISU Games Villages at a location to be defined. The samples collected at competition venue doping control stations will be transported to the WADA approved laboratory in Italy. Access to the doping control station is granted to all members of the FISU International Medical Committee who are on duty. The doping control station consists of at least three (3) separate spaces:

- A waiting room of a suitable size with a sufficient number of seats for athletes and their representatives, interpreters if their presence is necessary, as well as chaperones. The room contains an adequate supply of water and beverages in a sealed package in accordance with FISU requirements.

- A toilet of sufficient size with mirrors to precisely determine the origin of urine and wash basins.
- A sample processing room to guarantee the confidentiality of the procedure and interpretation of the results.

#### **18.4. Medication Check**

An athlete bears full personal responsibility for everything that he/she consumes. An athlete's ignorance regarding the ingredients of a medicinal product or a nutritional supplement of a prohibited substance does not release the athlete from responsibility. To avoid the intake of a prohibited substance, it is strongly recommended to study the Prohibited List on the WADA website. The medication check service is available on the Anti-Doping application (Drugs Enquiry Global DRO).

## IN ALTERNATIVE

Each edition of the Games begins at the **Brazier of Knowledge** usually located at the Rectorate of the Università di Torino (Via Po 17). This symbolic flame represents culture, sport, and knowledge, marking the start of a journey that unites nations and people, bridging past and future through a shared pursuit of learning.

The past seen through **Archivio di Stato**, an institutional and welcoming point for the public and delegations, open to all from 10 to 23 January from 10 am to 6:30 pm. Inside, with contributions from CUS Torino, Politecnico di Torino and the Accademia Albertina, it will showcase memorabilia tracing the origins of the Games, from Nebiolo's vision to the creative symbols of Torino 2025, including the torch, medals, and logo, designed by young talents from Piedmont's academic institutions.

The path of knowledge and tradition will also be displayed in the open-air exhibition in Piazza San Carlo entitled 'Passion and sport through time' that will narrate the evolution of winter sports from the 1960s to today. Additionally, a traveling exhibition will explain the significance of the FISU Games Turin 2025 as a new launch point for the university sports movement.

From the past to the future of innovation and sport, thanks to the Sprint Generation concept. The **Sprint Generation Poster Session Exhibition** will be hosted inside the Rectorate from **14 to 23 January 2025**. The exhibition will be open daily **from 11:00 am and 6:00 pm**, featuring innovative projects developed by finalist teams from the '**brains Challenge**' initiated by the Organising Committee in 2023. An award ceremony to recognize the winning team is scheduled for **15 January 2025**, at the **Cavallerizza Reale** in the morning.

The mash up of past, present and future, will be seen also in Piazza Vittorio Veneto with the vigorous silhouette of **VR Man**, a giant made of light, a stylized human silhouette, on whose head an Ionic capital seems to overlap which, positioned at eye level, simultaneously recalls a virtual reality visor. The Light conceived by the artist Andreas Angelidakis in the context of the new edition of **Luci d'Artista**, recalls the image of an athlete and was created for the occasion and with the support of the FISU World University Games Winter.

To enhance the cultural and social engagement of the Games, a variety of activities will be organized across the competition areas, designed for accredited participants and listed on the official event website <https://wugtorino2025.com/en/our-project/cultural/>. **Key highlights include:**

- **Concerts and Talks on Major Sporting Events:** In collaboration with the **Conservatorio Statale di Musica "Giuseppe Verdi"**, these events will provide a platform for artistic and academic discussions.
- Tours of the Murals created in collaboration with local Schools at competition venues in Sestriere, Pinerolo, Torre Pellice, Bardonecchia, Pragelato
- Specific social activities in the competition venues, as "Bardolesa" in Bardonecchia the 18 January, "Alpine Carnivals and Traditional Sweets. When tradition meets the charm of the Alps and winter sports!" in Pragelato, "Sport è Gioia" in Pinerolo

- **Museum Visits and Local Tours:** In partnership with the **Fondazione Torino Musei and Turismo Torino**, participants will have access to museums and a tailored program to explore the city, offering an immersive cultural experience for the FISU Family.

This comprehensive blend of past, present, and future elements will provide a rich cultural backdrop to the Games, highlighting the unique spirit of Turin and Piedmont, and the innovation at the heart of the Sprint Generation concept.

## 21. Media Services

### 21.1. General Information

The Media Operations and Media Services department has been in place since the weeks in which Torino 2025 was awarded the FISU World University Games.

The plans envisage that, in addition to a central Media Operations team, each competition venue will be managed by its own Venue Media Manager, together with a team of interns and volunteers. This manager will be responsible for looking after the journalists and photographers on site and supporting them with their agendas; ensuring that they adhere to the venue's regulations in media related areas and fields; and writing a press release after each competition day, which will be sent to the Central Desk for regional, national and international distribution.

In addition, ten photographers will promptly deliver the best pictures of the event.

### 21.2. Media Accreditation

Special accreditation will be provided for media representatives, giving them access to their specific work areas.

The accreditation period is expected to run from 1 [November](#) to 13 [December, 2024](#) for international media and to [January 8](#) for national media.

A submitted accreditation request does not automatically result in accreditation for this event. Requests from journalists, photographers and other media representatives who are not from Italy will be reviewed and accepted or rejected by the FISU media team. Requests from Italian media representatives will be checked by the Organising Committee in Turin.

### 21.3. Media Hotels and Media Transport

The Organising Committee has created the possibility for accredited media representatives to stay in the following hotels at special rates.

Booking and payment is done independently at the corresponding media hotel.

[DoubleTree by Hilton](#)

[NH Lingotto](#)

[Hotel Holiday Inn Corso Francia \(p.zza Massaua\)](#)

Media Operations is also working to organise the transport of media representatives to and from the competition venues and the MPC in Torino at the “Green Pea” in the best possible way. However, there will be no dedicated media shuttles - also for sustainability reasons.

#### **21.4. Main Press Centre, Press Tribunes, Media Workrooms**

The Main Press Centre will be set up in the “Green Pea” building in Lingotto, where the Figure Skating and Short Track competitions will be held. It will include around 50 workstations for journalists and photographers. In addition, the Media Operations team will have its headquarters in the “Green Pea” and will manage all other activities from there.

Media representatives will find press stands and workspaces at almost all the competition venues where they can pursue their professional activities: in Pinerolo and Torre Pellice (Ice Hockey), in Pragelato Plan (Cross-Country Skiing and Ski Orienteering), in Pragelato Rua (Biathlon), in Bardonecchia (Alpine Skiing, Freestyle Skiing, Snowboarding), in Sestriere (Ski Mountaineering), in Palatazzoli 1 (Ice Hockey).

Workspace for Curling (Palatazzoli 2) will be in Palatazzoli 1, just a few hundred meters away. A precise allocation will be made in the coming weeks and months.

#### **21.5. Mixed Zones**

When the athletes leave the Field of Play, they can only do so by going through the so-called Mixed Zone. In this area, journalists have the opportunity to talk to the athletes and obtain flash quotes.

The athletes are obliged to pass through this area but are not obliged to make statements (if they do not wish to do so).

Mixed Zones are generally and exclusively reserved for athletes and in special cases for coaches, but not for presidents, officials and other figures.

#### **21.6. Media Liaisons**

The Media Liaison Officers of the individual teams may facilitate the work of media representatives and establish contact with requested athletes, coaches or officials.

It is highly recommended that each delegation appoints at least one person responsible for media relations, communications, and social media. The person appointed to cover these roles will be known and accredited as Media Liaison, being part of the delegation (Delegations client group) but having specific media-related opportunities and responsibilities as listed below.

The responsibilities of the Media Liaisons are:

- Main point of contact for media on-site and abroad to connect with athletes of their delegation
- If possible, translation from the Athlete's national language to English for interviews by media and in the Venue Mixed Zone.
- Content creation for the NUSF or delegation social media accounts (national audience)
- Promotion of the event and FISU.tv to the delegation's national social media audience, national media, and TV channels
- Raise awareness with national TV broadcasters about the possibility to purchase the live feeds, and/or obtain free TV highlights and news from FISU ([media@fisu.net](mailto:media@fisu.net))
- Whenever feasible and available, help FISU's media activities with the participation of athletes in press conferences and talk shows, when requested.

Further information on Media Liaisons will be provided at a later stage.

### **21.7. Press Conferences**

An Opening Press Conference is currently planned for 12 January 2025 (12:00) and a Closing Press Conference for 23 January 2025(10:00 am). Further press conferences are not scheduled, but may be convened by FISU, the Organising Committee or the Venue Media Managers at short notice due to the requirements of their competition venues (e.g. when media request to talk to an athlete longer than just few minutes in mixed zone).

Should national delegations wish to organise their own press conferences, the Media Operations team will be happy to provide support where possible.

### **21.8. Media Hub - [www.wugtorino2025.com](http://www.wugtorino2025.com)**

A so called "Media Hub" will be set up on the website, which is password-protected, but to which accredited media representatives as well as media not working on site will have access. This area will contain as of today:

- Press releases on all competitions, day by day
- Additional reports and interviews- "Flash Quotes" from the medal winners and other personalities
- A selection of the most important and beautiful photographs of the day. Further content is still in the planning phase.
- Historical results and athletes' bios
- Official statements from the institutions
- Information from the client groups of Torino 2025

### **21.9. Newsletter**

During the event, Media Operations will compile a daily newsletter presenting reports, photos and results of the competitions and extra-sporting activities.

### **21.10. Media Guide**

At the end of October, the Version 1 of the Media Guide has been published, containing all the necessary and detailed information for media professionals. An updated and complete version of the Media Guide will be released.

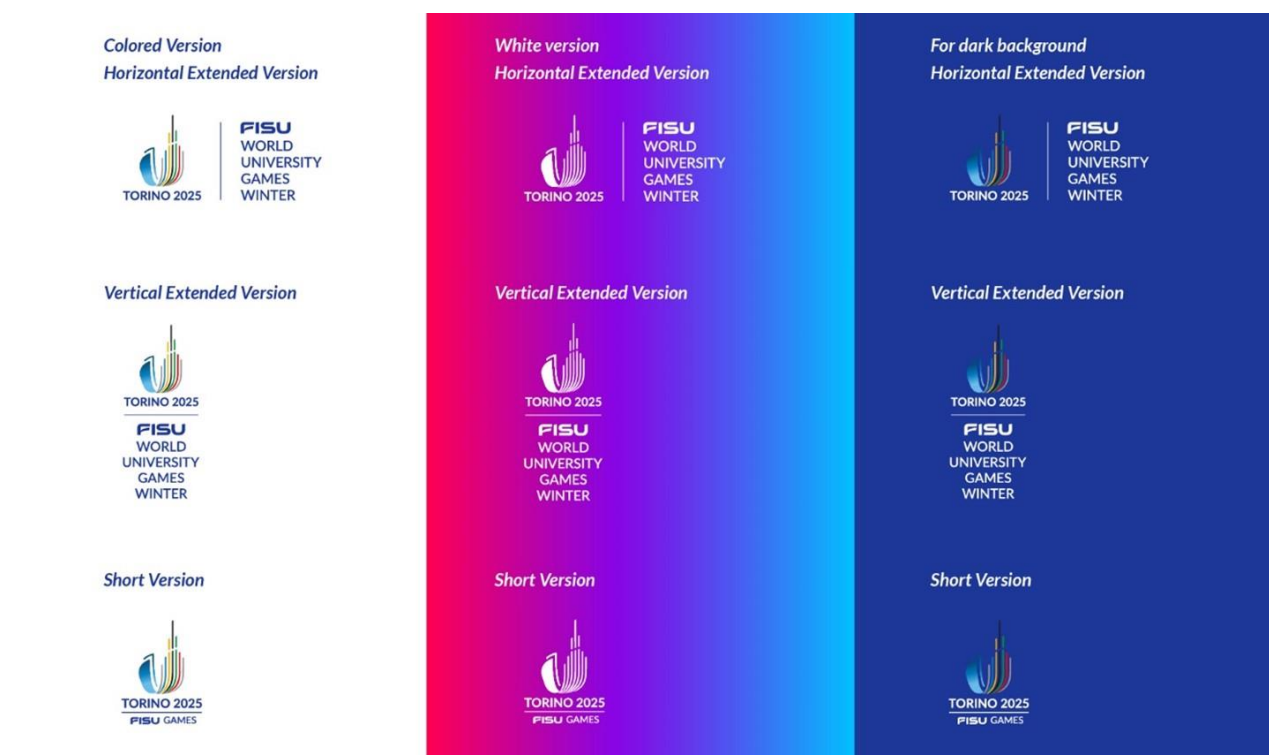

## 22. Marketing

### 22.1. Use of Torino 2025 FISU Winter Games Logo

The Organising Committee wants to communicate with university students and high school students that will be the focus target during FISU Games. The OC wants to promote the history of Torino as the place where the FISU Games (formerly Universiade) were born thanks to Primo Nebiolo and the place where the flame has its home. The Torino 2025 FISU Games logo is a mix of all these elements. The logo is characterised by originality, creativity and straightforwardness. When someone sees the logo, they have to think immediately about technology, sport and culture. How? The lines have the colour of the Olympic rings, the lines are reminiscent of electrical wires and technology. The element behind the image is the tip of a ski and the one in front of the drawing is the Mole Antonelliana. When you see a postcard of Torino you always find the Mole in the skyline; the Mole was the highest brick monument built in Europe for many years. The logo celebrates innovation, winter sport and the most important event in university sport.

The Torino 2025 FISU Games logo consists of three elements: the Event Logo, the Event Name, and a separating line. The logo was created in accordance with the FISU Brand Book and its specific design rules. The logo elements have a fixed relationship and should not be deconstructed, rearranged, or altered in any manner unless approved by the Torino 2025 FISU Games team.

Guidelines on the use of the Torino 2025 FISU World University Games' brand elements can be found in the logo guidelines. Link [LINEEGUIDA POP ENG 1.6.pdf](#)

## 22.2. Uniform Guidelines for Curling and Ice Hockey

Please note that Ice Hockey and Curling uniforms must follow the FISU Uniform Guidelines: Sport Uniform Guidelines Curling and Sport Uniform Guidelines Ice Hockey. Any Team Uniform respecting the current World Curling Uniform Policy will also be accepted at the FISU Games. For the positioning of the FISU Logo, NUSF logo and Event Logo (optional), teams are kindly asked to refer to the positioning in the FISU Uniform Guidelines.

Delegations participating in the Torino 2025 FISU World University Games Ice Hockey or Curling tournaments must send their uniform design to FISU Marketing (marketing@fisu.net) and the FISU Winter Games Department (wintergames@fisu.net) for approval two (2) weeks before production and, at the latest, three (3) months before the Torino 2025 FISU World University Games by sending photos of the front, back and sides (sleeves) of each uniform.

## 22.3. Email Signature

An e-mail banner has been created and is available to all NUSFs participating in the Torino 2025 FISU World University Games.

## 22.4. Detailed Athlete Uniform Guidelines

### 22.4.1. Event Logo

The usage of the Torino 2025 FISU World University Games logo is not mandatory, however, if a NUSF decides to use it on their uniform, the following conditions must be observed:

- The logos should be placed and produced in accordance with the “Torino 2025 FISU World University Games logo brand guidelines”.
- All delegations using the Torino 2025 FISU Games logo must send the layouts to [corporate@wugtorino2025.com](mailto:corporate@wugtorino2025.com)

### 22.4.2. FISU

The usage of the FISU logo (official “U” + FISU wordmark” logo) is not permitted.

### 22.4.3. Country identifications and NUSF logo

To intensify the country identity, all NUSFs are suggested to use their national colours, name, and flag and/or the NUSF logo. ## 24. Technology

### 24.1. Mobile Phone Network Services

Italy uses a diverse mobile telephone system: What is the difference between the cell phone bands in Italy, Asia, and the United States? European and Asian countries use the dual-band frequencies of 900 to 1800 MHz, while the United States primarily uses 850 to 1900 MHz. For mobile phone service during the Torino 2025 FISU World University Games, you'll need an unlocked GSM phone with tri-band 900/1800/1900 (or 850/1800/1900), or quad-band 850-900-1800-1900 service, if you intend to use the phone in Italy as well as in the United States/Asia.

Delegations are advised to check with their home country's mobile network service provider to confirm if their mobile phones are compatible with frequencies in Italy and should contact their home country's mobile network service provider should any difficulties arise. The OC recommends checking with the home country's mobile network service provider on whether roaming charges apply when using a home country international SIM card in Italy.

**Prepaid SIM cards will be provided by the Torino 2025 FISU Games to all Heads of Delegations.**

**The mobile data and call plan included with these SIM cards includes only local traffic, with unlimited calls and 300GB of data/Unlimited Data à TBD.**

**HoDs will receive a SIM card with €3 of credit for any out-of-plan usage, such as international calls.**

**After using all the pre-charged credit, you can top-up at any "Tabaccheria" or via the website of the provider à Provider TBD.**

**Please note: There are many stores in Torino and other major cities where SIM cards can be purchased.**

Personal identification, such as a passport, is required when buying a prepaid SIM card. The OC cannot guarantee the quality of mobile phone service provided by any network provider at any Torino 2025 FISU World University Games venue but is doing everything possible to ensure the service is as robust as possible. The OC recommends using TIM, Vodafone, WindTre, or Iliad, which are the leading telecom providers in Italy.

If a Head of Delegation requires a smartphone, the OC will provide one. Please refer to Chapter 12.6. Smartphones and SIM Cards. Instructions on how to make calls from within Italy are explained in Chapter 3.2 Useful Information.

## ***24.2. Internet Access at Competition and Non-Competition Venues***

At competition venues, a dedicated, complimentary Wi-Fi network will be available for accredited individuals in select areas, including competition venues, villages, and dining halls. Networks will be secured with a password that will be provided upon request.

Free public Wi-Fi networks are available in a few public areas throughout Torino. Many cafes, restaurants, and hotels offer complimentary Wi-Fi for their customers.

For those requiring more reliable and faster internet access, it is recommended to use local mobile data solutions. SIM cards with data plans can be purchased from major telecom providers such as TIM, Vodafone, Iliad, and WindTre. These providers offer a range of prepaid options suitable for short-term visitors.

Personal identification, such as a passport, is required when buying a prepaid SIM card. The OC cannot guarantee the quality of internet service provided by any network provider at any Torino 2025 FISU World University Games venue but is doing everything possible to ensure the service is as robust as possible.

If a Head of Delegation requires a dedicated internet connection, the OC will provide one. Please refer to Chapter 12.6. Internet and SIM Cards. Instructions on how to connect to the internet in Italy are explained in Chapter 3.2 Useful Information.

## 27. Torino 2025 FISU World Conference

### 27.1. The SPRINT Generation

The FISU World Conference's goal is to create a platform for presenting scientific views on university sport, thereby stimulating research on this topic. Conference themes focus on the study of university sport and are further complemented with keynote addresses, poster presentations, and discussion groups.

The title for Torino 2025 FISU World Conference is 'The SPRINT Generation'. Sprint as acronym of: Sport - Risk- Innovation- Technologies

The objective of this edition is to create a networking platform for scientists who will present and promote the research on scientific innovations and enhance the sustainable development of winter sports.
